

Units 4-6: Math – Charts and graphs

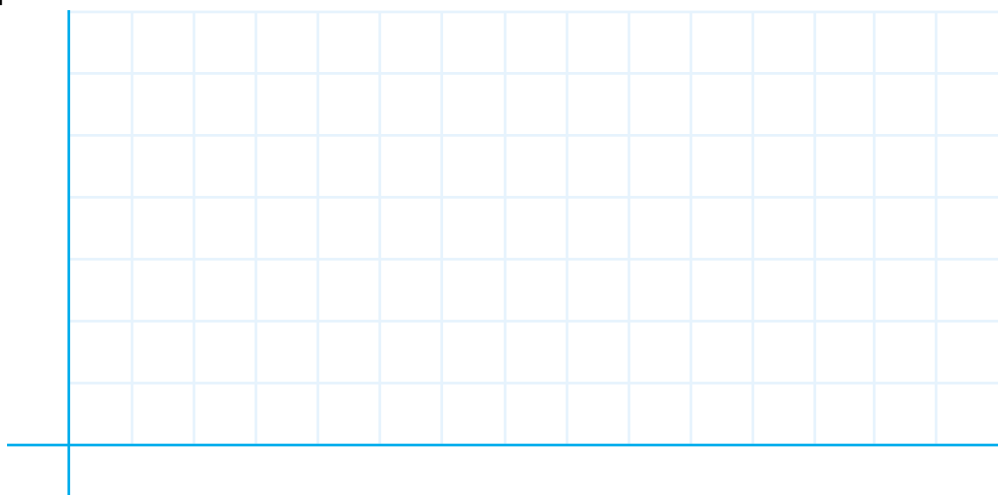

Do you know much about your country? Do the webquest and find out.

- 1 Use the Internet to find data about the percentage of people who live in cities and people who live in towns and in the countryside. Show your results in a pie chart.

☐ towns
☐ countryside

- 2 Use the Internet to find data about the number of inhabitants in your city/town in 1950, in 1970, in 1990 and now. Show your results in a line graph.

- 3 **PROJECT:** Use the Internet to find data about the total number of gold medals won at the last Olympics by your country, the U.S.A., the U.K. and Australia. Decide which is the best way to display the data and make a poster. Show your work to your parents and explain what it shows.
